RE:

A NEW SYSTEM OF COMMUNICATION

STEPS

1. The 2nd state of motion PS01 Form must include all categories of one's daily social practice. The PS01 must be used to record ongoing changes in one's social practice.
2. There must be a PS02 for every process one is apart of, or the under taking of a process.
3. Use the Work Breakdown Structure Input Data Form PS01 in conjunction with PS 02. Centralize this form and the other two, but this form will be computerized and returned to you.
4. In 4 to 5 weeks new forms will be coming out as replacement for the now 3 communication forms (PS01, PS02, and PS01 Summary Form).

This new system of communication is in conformity with the objective requirements of the O's new stage of development.

The old system of organizational communication was very costly financially and often gave rise to misunderstanding, resulting therefore in the waste of time and energy. In the case of the metaphysician, many exchanges in correspondence had to take place because there were many questions and statements indicating indetermination of what is essence, priority, or principal. In the case of the idealist, many instructions had to be given because there were many statements and questions indicating unvisualization of interconnection between objective external reality and internal relationships.

Responses to questions, problems, etc. will not be made without the use of the PS system of communication, PSSC, after 5/10/81.
