

6/2/86

The discussions of Davis' book marks the beginning of formalized group discussions since 1974. The historical context of these discussions was held during the time when the conceptual theory of the organization was being shaped.

Since the time of these discussions, the following fundamental contradictions were resolved. 600--601, 607, 608; 800--801, 804, 806, 807, 810; 300-301, 304, 305, 306, 307, 308, 309, and 310. Actually, the 300 fundamental contradiction will be resolved some time this year.

In the following months, formalized discussions will be held on the national and class questions, and an organizational summary.
