

S:

THE TWO ASPECTS OF THE CONTRADICTION AT EACH STAGE

" IN THE PROCESS OF DEVELOPMENT THE NEW GROWS STRONG AND OVERPOWERS THE OLD, AND THIS LEADS TO THE FORWARD MOVEMENT OF DEVELOPMENT, IN WHICH EACH STAGE IS AN ADVANCE TO SOMETHING NEW, NOT A FALLING BACK TO SOME STAGE ALREADY PASSED".

I/C OF INTERDEPENDENT:

[THE RELATIONAL CONTRADICTION BETWEEN THE OLD AND NEW, PAST AND FUTURE]

IDEOLOGICAL

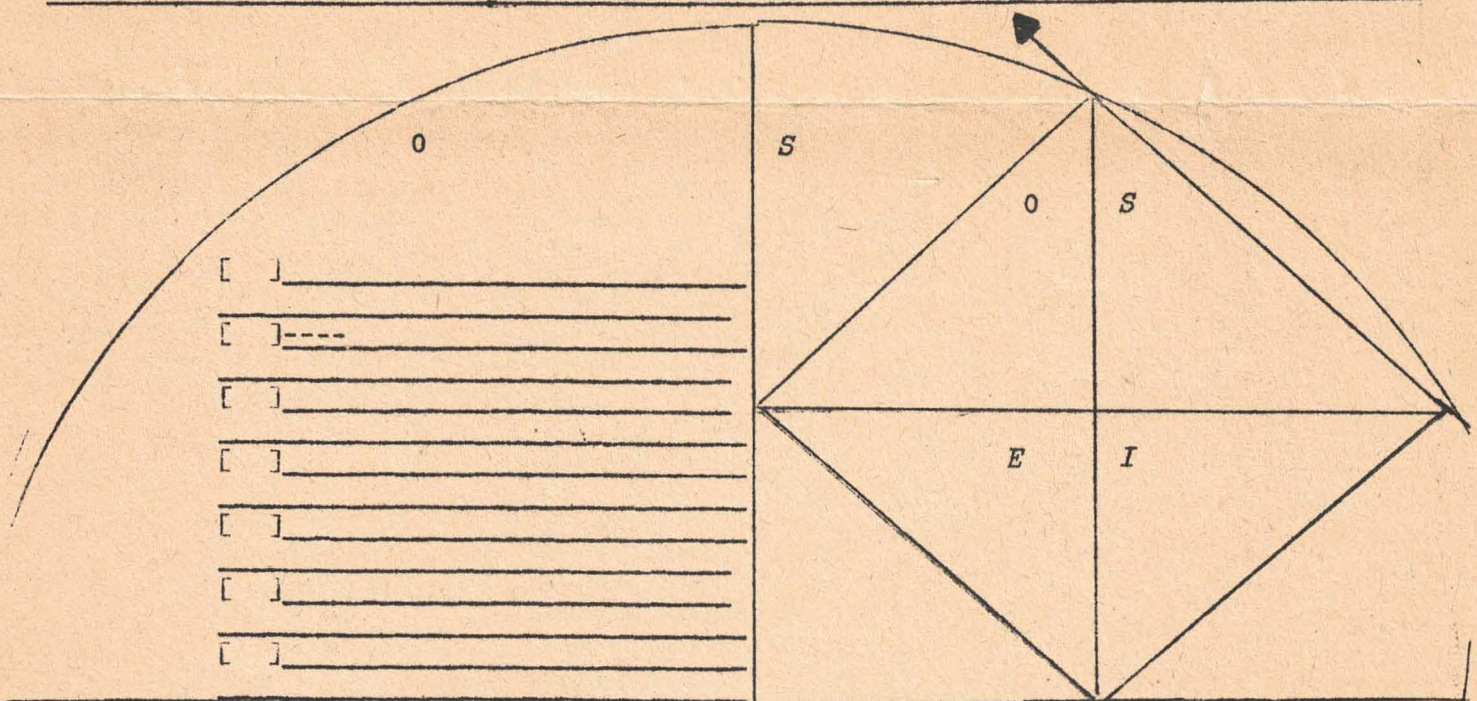

αK_g IS THE DMM SYMBOL FOR TAKE AS IS THE PHILOSOPHICAL MODE OF MOTION OF

METAPH. WOMEN WHOSE DI IS THEIR FATHERS. DEFINITION: " TAKE ...IN INNUMERABLE IDEOMATIC APPLICATIONS, A VERY WIDE RANG OF METHODS OF GETTING HOLD OF SOMETHING OR POSSESSING IT IN SOME WAY." THIS PHILOSOPHICAL IDEO MODE OF MOTION IS POSITIONED IN THE 2ND STATE OF MOTION AND AS SUCH ITS POSITION REST ON THE ABILITY TO EMPLOY MATHEMATICAL APPLICATION.OVER AND AGAINST MATERIALISTIC DIALECTICS.IN ADDITION,THE IDEO CHARACTERISTIC OF THIS MODE OF MOTION IS NOT BEING ABLE TO EXPLAN "THE MUTUAL CONNECTION AND MUTUAL TRANSITIONS OF THE QUALITATIVE AND QUANTITATIVE DEFINITENESS IN EVERY PROCESS." IN EVERY PROCESS THERE IS A TRANSITION OF QUALITY INTO QUANTITY AND CONVERSELY QUALITY INTO QUANTITY.. MOREOVER, "CONTEMPT OF QUALITY BECOME AN OBSTACLE TO THE FUTURE DEVELOPMENT OF KNOWLEDGE: IT DEPRIVED THE QUANTITATIVE METHOD OF ITS NECESSARY QUALITATIVE BASIS. THE STUDY OF THE QUANTITATIVE ASPECT OF THINGS IS IN DIRECT DEPENDENCE OF THE DEPTH AND ACCURACY OF THE KNOWLEDGE OF THEIR QULAITIES."

<u>PRESENT STATE</u>	<u>INPUT</u>	<u>ACTIONS</u>	<u>OUTPUTS</u>	<u>NEXT STATE</u>

"...at a certain stage of development does knowledge of quantitative definiteness begin to play an essential role in man's (women's) recasting of things. Simple activity in relation to particular aspects of things gives no basis for an accurate quantitative evaluation of the changes being produced. As we know particular properties are in themselves unstable and relative. By considering them we can, in any given case, expect only an approximate, only a more or less probable, result. And only in a radical, all-sided recasting of things do we obtain the key to their stability and to their changes and are we able accurately to define the limits of the processes which we are evoking. Mastering the quality of the object in its entirety gives us the basis for reckoning the quantitative connection between our actions and the results which we obtain."
